Choice vs. Follow Through

- Choice is what you want
- Follow through is feeling it already is
- What you focus on you get
- Awareness = creation
- Cannot just think a manifesting thought
- Internal chatter and beliefs stop positive choice

Feelings are communicating and directing the results

- Feelings = language
- Feelings = vibration
- Vibration = math
- Math = Code
- Code = Program
- Program = result

*You are sending a
mathematical code out to
the universe*
